

BODY LOTION

Silky and deeply moisturizing, our body lotion leaves your skin feeling soft and hydrated without any greasy residue. It only takes a dab of our all natural, renewable ingredients to provide immediate skin relief to dry or weathered skin. High concentrations of the finest quality of **organic Aloe Vera** penetrates and rejuvenates your skin, while our unique ingredient of **organic Yerba Maté** infuse one of the highest levels of vitamins, minerals and antioxidants on the market today.

Go ahead - indulge your skin!

WATER: Aqua (water) in a highly purified pharmaceutical grade.

CARTHAMUS TINCTORIUS SEED OIL (SAFFLOWER): Safflower seeds are rich in linoleic acid to attract free radicals and leave an excellent barrier to protect and nourish the skin.

VEGETABLE EMULSIFYING WAX NF: A co-emulsifier, used to keep the oil and water from separating in the lotion..

ORGANIC BARBADENSIS (ALOE VERA GEL): We use only certified organic Aloe Vera Gel sourced by the world's oldest and largest manufacturer and grower of Aloe Vera from a farm in the Dominican Republic. Aloe has been used for centuries as a rejuvenator of cells and adds cool, soothing properties to the skin.

GLYCEROL STEARATE: Derived from corn or hydrogenated soya bean oil, this co-emulsifier is used as a thickener in our lotion and adds moisturizing properties.

CETYL ALCOHOL: A coconut oil co-emulsifier used as a thickening agent for the conditioner.

GLYCERINE: A thick and rich natural by-product of soap that assists in retaining moisture in the skin.

SODIUM STEARYL LACTYLATE: Wheat and corn extract used to aid the natural blending of our ingredients, which leaves the skin feeling soft.

ORGANIC YERBA MATÉ EXTRACT: We are the first company in the United States to utilize this Southern Brazil nutrient rich tree leaf extract in a complete line of personal care products. This certified organic extract has skin strengthening properties and is rich in vitamins, minerals and antioxidants.

TOCOPHEROL ACETATE (VITAMIN E): Vitamin E is a pure, natural antioxidant which helps to preserve the essential oils we use.

BUTYROSPERMUM PARKII SEED (SHEA) BUTTER: Naturally derived from the shea fruit, this extract moisturizes and provides barrier protection.

PERSEA GRATISSIMA (AVOCADO) EXTRACT: A rich and nourishing botanical oil blend derived from avocados, used for moisturizing. This natural extract is full of Vitamins A & E.

DAUCUS CAROTA SATIVA (CARROT) EXTRACT: This emollient skin conditioning oil, derived from carrots, is rich in Beta-carotene as well as Vitamins B, C, D and E. It also serves as an effective skin rejuvenator on dry and aging skin.

CUCUMIS SATIVUS (CUCUMBER) EXTRACT: Derived from the cucumber plant, a natural cleansing toner that provides cool soothing properties to our lotion.

PANAX GINSENG (GINSENG) EXTRACT: A natural root derivative that has anti-inflammatory, antioxidant and anticancer effects on your skin.

TILIA CORDATA EXTRACT (LINDEN TREE): We add this extract from the small leaved lime tree for its aroma and it's soothing skin property.

PURE ESSENTIAL OILS: We use carefully selected pure natural essential oils to provide our pleasantly fresh and unique aromas, as fresh and unique as the rainforest we preserve.

PHENOXYETHANOL: Preservative which offers effective broad spectrum protection against gram-positive & gram-negative bacteria, yeast, & mold while imparting emolliency to the finished product.

ETHYLHEXYLGLYCERIN: A natural preservative derived from grains and plants used as an alternative to parabens.

POTASSIUM SORBATE: A preservative used to inhibit the growth of microorganisms to ensure shelf-life and to be used as an alternative to parabens.

CETYL HYDROXYETHYLCELLULOSE: An emulsion stabilizer used to thicken our lotion and leaves the skin feeling silky and supple.

CITRIC ACID: A naturally occurring acid found in citrus fruits such as lemons, oranges and grapefruit which we use as an acid balancer or preservative.
