

Organic Oils Exfoliating Soap Bar

Our NEW Organic Oils Soap products are a creamy, lathering experience. Made with all-organic oils, organic Yerba Maté and organic Aloe Vera, these soaps are made the old fashioned way with the cold saponification process. No animal fat or by-products are used. We add organic oils of palm, coconut and olive, producing a great creamy lather.

Our soaps provide gentle exfoliation and a nice astringent feel to the skin through the properties of our unique ingredient of organic Yerba Maté. High concentrations of organic Aloe Vera then rejuvenate the exfoliated skin and assist in moisture retention along with the retained glycerin.

Lather Up and take the soap challenge – We believe you'll love our soaps!

Sizes

- 2.0 oz – personal size bar with rounded edges
- 3.75 oz – bath size bar with square edges
