# Buy More Save More

One Product = One Acre of Rainforest Saved for One Year™

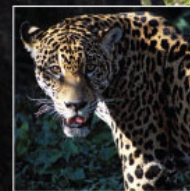

## COMMITMENT

Save Your World™ partnered with Conservation International, a leading environmental organization with conservation programs worldwide who in 2002 signed an innovative agreement to lease 200,000 acres of rainforest located along the upper reaches of Guyana's largest river, the Essequibo River.

Under the terms of the agreement, Conservation International pays the government's Forestry Commission exactly what it would have received had the area been logged. But instead of cutting the trees, the area is protected and kept in its pristine state - a conservation concession rather than a timber concession.

Through donations to this project, Save Your World™ is helping to pay the annual royalties and fees required to maintain Conservation International's agreement with the Guyana Forestry Commission.

Save Your World™ contributions vary according to product. Currently, the products generate a contribution of \$0.15 to \$4.50 per product.
