

CONDITIONER

This mild, moisturizing conditioner will make you wonder how you managed your hair all these years without it. Rich in natural oils of Coconut and Avocado coupled with doses of antioxidant rich Mango Butter and infused with the finest grade of organic Aloe Vera, your hair will feel pampered. Our unique ingredient of organic Yerba Maté delivers nutrient rich, vitamin, minerals and antioxidants absorbed into your hair with this luxurious conditioner.

INFUSION OF CHAMOMILE FLOWERS: A naturally derived extract from the chamomile herb, which provides soothing, antiseptic properties to the scalp and promotes healing of the skin.

BEHENTRIMONIUM METHOSULFATE: The mildest hair-detangling ingredient available. Derived from rapeseed oil of the natural plant Colza, this mild conditioner is so gentle that it is recommended for use in baby products. This softener bonds with your hair to strengthen the hair shaft and detangle hair without causing build up or heaviness.

CETYL ALCOHOL: Derived from coconut oil, this co-emulsifier is used as a thickening agent for the conditioner.

COCONUT OIL: A natural moisturizer that nourishes the skin and hair, which, for centuries has been used to add a healthy shine to hair.

AVOCADO OIL: Avocado is rich in Vitamins A & E, and is one of the most penetrating moisturizers to transport active substances into the hair shaft and skin.

MANGO BUTTER: Rich in antioxidants, this natural fruit based product conditions and softens giving your hair that silky feeling.

ORGANIC ALOE VERA EXTRACT: We use only certified organic Aloe Vera extract sourced by the world's oldest and largest manufacturer and grower of Aloe Vera from a farm in the Dominican Republic. Aloe Vera is used to retain moisture and hydration in your hair, and prevent brittleness.

ORGANIC YERBA MATÉ EXTRACT: We are the first company in the United States to utilize this Southern Brazil nutrient rich tree leaf extract in a complete line of personal care products. This certified organic extract has hair strengthening properties and is rich in vitamins, minerals and antioxidants

BUTYLENE GLYCOL*: Used as a co-emulsifier that functions similar to glycerin to open up the hair shaft and allow moisture penetration.

* included in formulation at less than .05% (1/2 of one (1) percent).

VEGETABLE EMULSIFYING WAX: A co-emulsifier, used to keep the oil and water from separating in the conditioner and add thickness to your hair.

PURE ESSENTIAL OILS: We use carefully selected pure natural essential oils to provide our pleasantly fresh and unique aromas, as fresh and unique as the rainforest we preserve.

DELTA GLUCONOLACTONE: A strong preservative used to ensure long-lasting freshness of our conditioner.

CALCIUM GLUCONATE: An aid to the preservative DELTA GLUCONOLACTONE, it weakens the cell walls of any micro organism to allow the preservative system to penetrate and become more effective.

SORBIC ACID: A natural compound found in Mountain Ash berries. It is used as a preservative in our conditioner for long lasting shelf life of the product.
