

## LIP BALM

We all want kissable, soft lips, and that's exactly what you'll get with **Save Your Lips®** Lip Balm. Made with natural ingredients that are rich in moisturizing properties like coconut, safflower oil and mango butter, this formula includes antioxidants such as Vitamin A, C and E for added protection for your lips.

Apply often!

**COCOS NUCIFERA (COCONUT OIL):** A natural moisturizer that nourishes the skin.

**ALOE BARBADENSIS LEAF JUICE (ORGANIC ALOE VERA):** We use only certified organic Aloe Vera extract sourced by the world's oldest and largest manufacturer and grower of Aloe Vera from a farm in the Dominican Republic. Aloe Vera is used to retain moisture and hydration in your hair, and prevent brittleness.

**EUPHORBIA CERIFERA (CANDELILLA) WAX:** Derived from a low, light blue-green desert shrub of Texas, Mexico and Northern Central America. The tiny leaves are quickly deciduous. The wax exudes from pores and forms a thin film on the stems. The principal source is from wild plants. This wax is used as an extender in our formula.

**CERA ALBA (BEESWAX):** A natural wax found in the walls of the honeycomb in beehives and is a natural emulsifier that works to seal and protect the lips.

**ILEX PARAGUARIENSIS LEAF (ORGANIC YERBA MATÉ) EXTRACT:** We are the first company in the United States to utilize this Southern Brazil nutrient rich tree leaf extract in a complete line of personal care products. This certified organic extract has hair strengthening properties and is rich in vitamins, minerals and antioxidants

**CARTHAMUS TINCTORIUS (SAFFLOWER) SEED OIL:** Safflower seeds are rich in linoleic acid to attract free radicals and leave an excellent barrier to protect and nourish the lips.

**BUTYROSPERMUM PARKII (SHEA) BUTTER:** Naturally derived from the nut-like fruit of the Karite Tree, of the Ivory Coast of Africa. This extract moisturizes and provides barrier protection.

**NATURAL FLAVORING DERIVED FROM PURE NATURAL ESSENTIAL OILS:** Natural flavors such as Palmarosa, Lemongrass, Clary, Basil, Coriander Fruit

and Caraway Fruit, Grapefruit Peel, Orange Mandarin Orange, Ginger Root and Tangerine Root (depending upon the flavor)

**SIMMONDSIA CHINENSIS (JOJOBA) SEED OIL:** A natural derivative from the seeds of the Jojoba fruit, this oil helps provide a smooth application to your lips and aids in healing of any irritations.

**MANGIFERA INDICA (MANGO) SEED BUTTER:** Rich in antioxidants, this natural fruit based product conditions and softens giving your lips that silky feeling.

**THEOBROMA GRANDIFLORUM (CUPUACU) FRUIT EXTRACT:** From the Amazon rainforest, this alternative to Shea Butter has even greater moisture and moisture retention properties than Shea and flaunts an impressive share of omega fatty acids (primarily a healthy ratio of 3 to 6), but even more impressive is the abundance of anti-oxidizing polyphenols found to exist nowhere else in nature.

**COPERNICIA CERIFERA (CARNAUBA) WAX:** is a wax derived from the leaves of a plant native to northeastern Brazil, the carnauba palm (*Copernicia prunifera*). It is known as "queen of waxes" and is used in a variety of products including lipstick or lip balms.

**D-ALPHA TOCOPHERYL ACETATE AND MIXED TOCOPHEROL (VITAMIN E):** This blend of Vitamin E is a family of nutrients, not just a single compound. A pure, natural antioxidant which helps to preserve the essential oils we use while also nourishing the lips with nutrients.

**ROSMARINUS OFFICINALIS (ROSEMARY) LEAF EXTRACT:** Applied to the skin, rosemary essential oil helps strengthen the capillaries and has a rejuvenating effect. Also recently found to be a strong antioxidant and having anti-inflammatory properties.

**RETINYL PALMITATE (VITAMIN A):** Essential nutrient necessary for healthy skin maintenance and rejuvenation. Vitamin A is a natural antioxidant that nourishes the skin and keeps it soft and supple.

**ASCORBYL PALMITATE:** A fat-soluble form of Vitamin C, with antioxidant properties as well as preservative.
