

TEN RAINFOREST ACTION STEPS

Restore damaged ecosystems by planting trees on land where forest or trees have been cut down.

Act in a way that encourages people to stop hurting the environment.

Involve yourself in joining a cause that supports saving the rainforest.

Never drive when you can walk or ride your bicycle.

Form a conservation group or join our Save Your Rainforest Wristband or Friends of the Rainforest program.

Obtain a love for nature and the environment.

Remain committed to Save Your Rainforest.

Establish parks to protect rainforest and other wildlife.

Support companies that operate in ways that minimize danger to the environment.

Teach others about how important the rainforest is to the environment and how they can help.
